1. IDENTIFICATION OF THE SUBSTANCEPREPARATION AND THE COMPANY/UNDERTAKING

Product Name: Duxson Master Decorator Interior Acrylic (satin)
Recommended Use: coating for interior surfaces

Supplier: Tradepaints
ABN: 52 106 069 655
Street Address: 142 Fitzgerald Rd, Laverton North, VIC, 3026
Telephone: (03) 9369 3455
Faximile: (03) 9360 0876
Emergency Phone: (03) 9369 3455
Hour of Operation: 8:00am -4:00pm Mon-Fri

2. HAZARDS IDENTIFICATION

This material is not classified as hazardous according to health criteria of Safe Work Australia

Poison Schedule: . Not applicable

DANGEROUS GOOD CLASSIFICATION
Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".

Dangerous Goods Class: n/a

3. COMPOSITION INFORMATION

CHEMICAL ENTITY	CAS NO	PROPORTION
Ingredients determined not to be hazardous	not applicable	100%

4. FIRST AID MEASURES

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126, New Zealand 0800 764 766).

Inhalation: Remove victim from exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest untilfully recovered. Seek medical advice if effects persist.

Skin Contact: If skin or hair contact occurs, immediately remove contaminated clothing and flush skin and hair with running water.
If swelling, redness, blistering, or irritation occurs seek medical assistance.

Eye contact: If in eyes wash out immediately with water. In all cases of eye contamination it is a sensible precaution to seek medical advice.

Ingestion: Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. If vomiting occurs give further water.
Seek medical advice.

Notes to physician: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Hazchem Code:	not applicable
Suitable extinguishing media:	If material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).
Specific hazards:	non-combustible material
Fire fighting further advice:	not combustible, howeve following evapouration aqueous component residual material can burn if ignited. Fire fighters to wear sefl-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

6. ACCIDENTAL RELEASE MEASURES

SMALL SPILLS	Wear protective equipment to prevent skin and eye contamination. Avoid inhalation of vapours or dust. Wipe upwith absorbent (clean rag or paper towels). Allow absorbent to dry before disposing with normal household garbage.
LARGE SPILLS	Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. If contamination of crops, sewers or waterways has occurred advise local emergency services.

Dangerous Goods Initial Emergency Response Guide No: not applicable

7. HANDLING AND STORAGE

Handling:	Avoid eye contact and skin contact. Avoid inhalation of vapour, mist or aerosols.
Storage:	Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for leaks.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National occupational exposure limits: No value assigned for this specific material by Safe Work Australia.

Biological Limit Values: As per the "National Model Regulations for the Control of Workplace Hazardous Substances (Safe Work Australia)" the ingredients in the material do not have a Biologiacal Limit Allocated.

Engineering Measures: Ensure ventilation is adequate to maintain air concentrations below Exposure Standards. Use only in well ventilated areas. Use with local exhaust ventilation or while wearing appropriate respirator. Vapour heavier than air - prevent concentration in hollows or sumps. Do NOT enter confined spaces where vapour may have collected. Keep containers closed when not in use.

Personal Protection Equipment:

SAFETY SHOES
OVERALLS
GLOVES
SAFETY GLASSES

Wear overalls, safety goggles and impervious gloves. Available information suggests that gloves made from nitrile rubber should be suitable for intermittant contact. However, due to variations in glove construction and local conditions, the user should make a final assesment. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.
If risk of inhalation exists, wear organic vapour/particulate respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.

Hygiene Measures: Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Avoid contact with clothing. Avoid eye contact and skin contact. Avoid inhalation of vapour, mist or aerosols. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form / Colour / Odour:	White liquid with a bland odour.
Solubility:	Miscible with water.
Specific Gravity:	1.2-1.3
Vapour Density (Air = 1):	>1
Vapour Pressure:	Not Available
Flash Point:	Not Applicable
Flammable Limits (in air):	Not Applicable
Ignition Temperature:	Not Available
Melting Point (oC):	Not Available
Boiling Point (oC):	Approx 100^{oC}
Decomposition Point:	Not Available
pH Value:	Not Available

10. STABILITY AND REACTIVITY

Chemical Stability:	This material is thermally stable when stored and used as directed
Conditions to avoid:	Elevated temperatures and sources of ignition.
Incompatible materials:	Oxidising agents.
Hazardous decomposition	Oxides of carbon and nitrogen, smoke and other toxic fumes.
Hazardous reactions:	No known hazardous reactions.

11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects

Inhalation:	Where this material is used in a poorly ventilated area, at elevated temperatures or in confined spaces, vapour cause irritation to mucous membranes and respiratory tract, headache and nausea.
Skin contact:	Contact with skin may result in irritation
Ingestion:	No adverse effects expected however large ammounrts may cause nausea and vomiting.
Eye contact:	May be an eye irritant

Acute Toxicity

Inhalation:	This material has been classified as non-hazardous.
Skin contact:	This material has been classified as non-hazardous.
Ingestion:	This material has been classified as non-hazardous.
Corrosion/Irritancy:	Eye: this material has been classified as not corrosive or irritating to eyes. Skin: this material has been classified as not corrosive or irritating to skin.
Sensitisation:	Inhalation: this material has been classified as not a respiratory sensitiser. Skin: this material has been classified as not a skin sensitiser.
Aspiration hazard:	This material has been classified as non-hazardous.

Specific target organ toxicity (single exposure):	This material has been classified as non-hazardous.
Chronic Toxicity	
Mutagenicity:	This material has been classified as non-hazardous.
Carcinogenicity:	This material has been classified as non-hazardous.
Reproductive toxicity	This material has been classified as non-hazardous.
Specific target organ	This material has been classified as non-hazardous.

12. ECOLOGICAL INFORMATION

Avoid contaminating waterways.

Acute aquatic hazard:	No information is available to complete an assesment.
Long-term aquatic hazard:	No information is available to complete an assesment.
Ecotoxicity:	No information available.
Persistence and degradability:	No information available. No information available.
Bioaccumulative potential:	No information available.
Mobility:	No information available.

13. DISPOSAL CONSIDERATIONS

Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see "section 8. Exposure Controls and Personal Protection" of this SDS.
If possible material and its container should be recycled. If material or container cannot be recycled, dispose inaccordance with local, regional, national and international Regulations.

14. TRANSPORT INFORMATION

ROAD AND RAIL TRANSPORT
Notclassified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".

MARINE TRANSPORT
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea. This material is classified as a Marine Pollutant (P) according to the International Maritime Dangerous Goods Code.

AIR TRANSPORT
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

15. REGULATORY INFORMATION

This material is not subject to the following international agreements:
Montreal Protocol (Ozone depleting substances)
The Stockholm Convention (Persistent Organic Pollutants)
The Rotterdam Convention (Prior Informed Consent)
International Convention for the Prevention of Pollution from Ships (MARPOL)

This material/constituent(s) is covered by the following requirements:
All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION
